Wellhouse Drainage Strategy

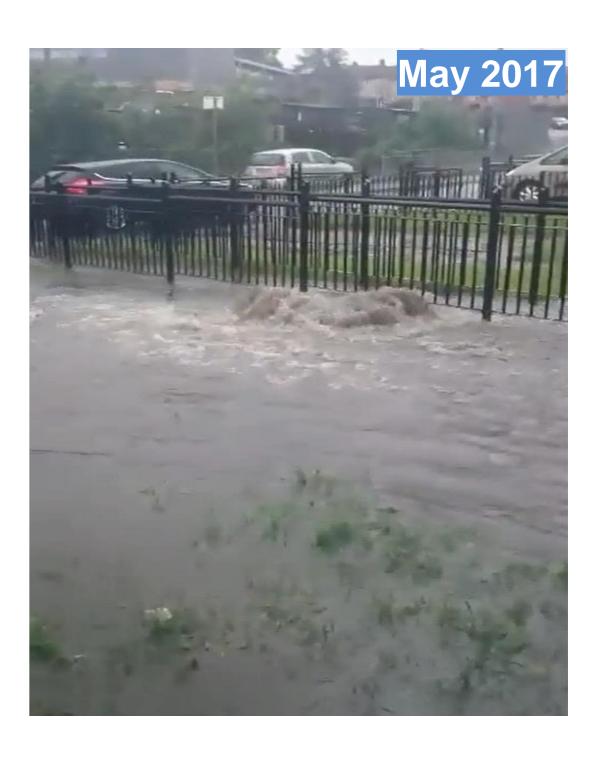

Overview of Drainage Network

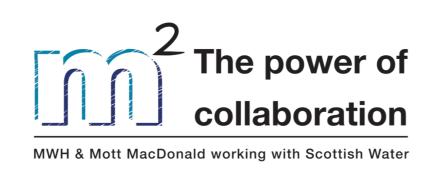

Sewer Flooding Issue

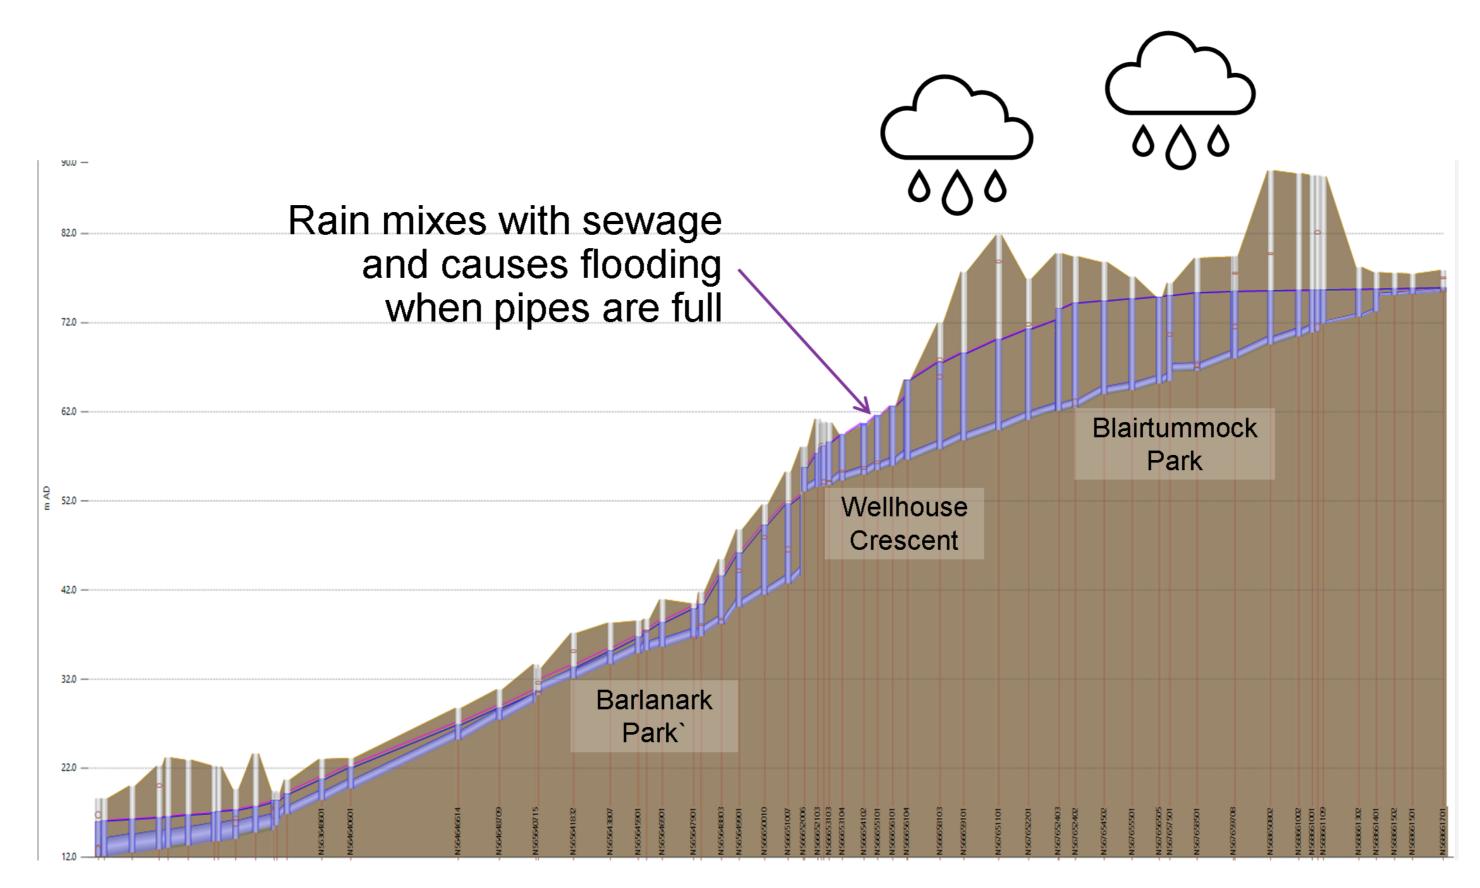

Wellhouse Drainage Strategy

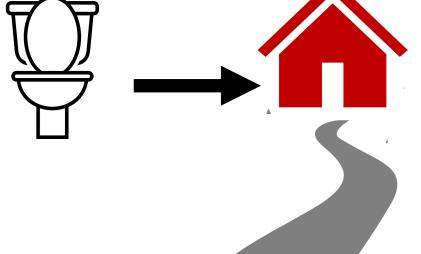

Why does sewer flooding happen?

Rainfall goes into sewers rather than watercourses

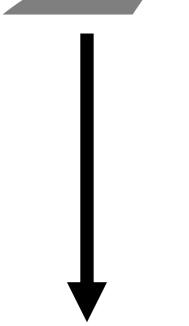

How do we manage drainage at the moment?

Hard landscaping areas don't absorb water and runs into pipe

Single pipe deals with foul and rainwater

Treatment Works

How can we reduce flooding and improve drainage?

Introduce soft landscaping to reduce rain getting into sewer

Provide storage to increase sewer capacity

Dalmarnock Treatment Works
